HCI LAB ASSIGNMENT 01

MUAAZ SHOAIB

FA20-BCS-074

01-MAR-2023

Lab Task 01

1. Instruction text should be aligned on right side

2. 'CUSTOMER SERVICE AWARD' title should be on top

3. Text in certificate is hard to read, it font size should be increased

Lab Task 02

1. This website should access location of customer, then locates the nearest branch, branch should not be manually selected

2. This website is accessing contact information, but this process will irritate the user experience as user is already registered

3. As by default Islamabad is selected, it here by default user city should be selected

Lab Task 03

1.Hopscotch as a more variety of products then Minnie Minors, it easier to find a product in both websites

2. Both websites have a search box to search products

3. Both have nice user experience, but I like Hopscotch

Lab Task 04

I am comparing NUST University with Stanford University.

1. In NUST website it easier to find information for Master degrees as on Stanford university because in NUST programs information is provided on the home page
2. Both websites have a search box to search information
3. In Stanford website information about campus life is given
